Our Value

Project 1

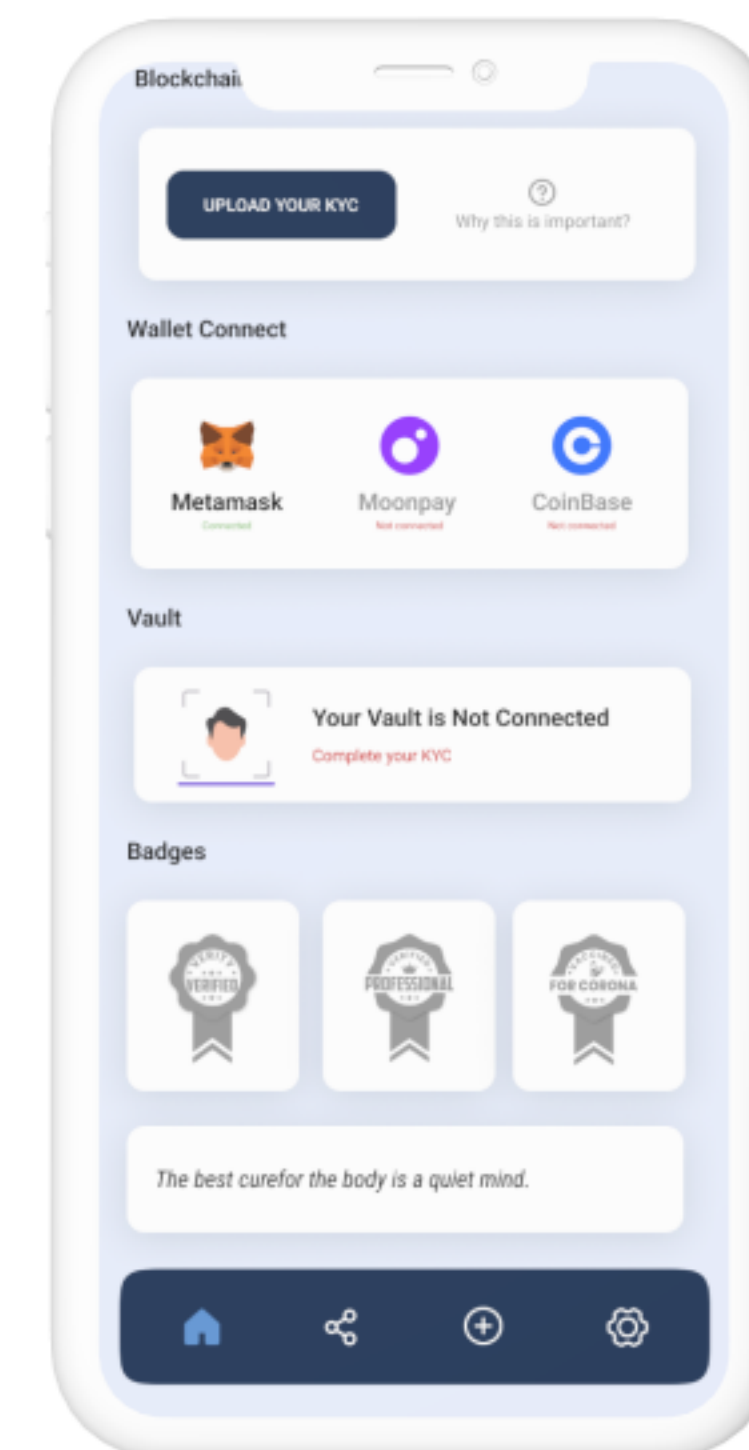

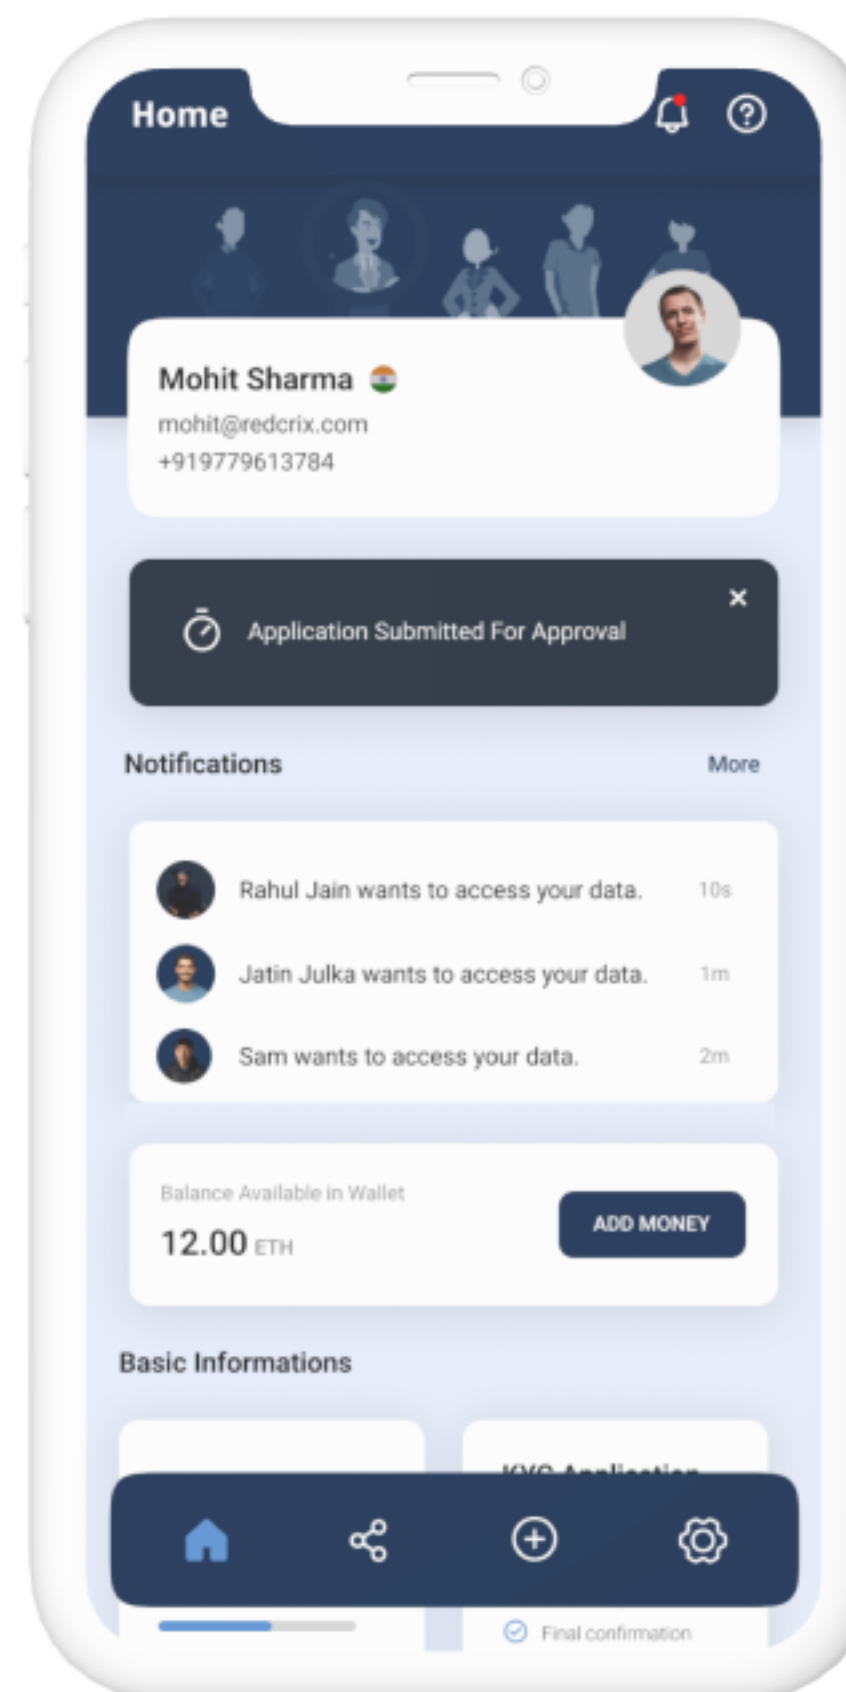

Verity Verification (IOS ANDROID)

KYC Compliance System is the User-Client Lifecycle Management solutions on the market that allows organizations of any size or type to access the information related to all kind of subjects from the Users. Clients be confident of the information provided by user, because all of it is verified for authenticity.

Clients can access necessary information by user's permission to disclose certain parts of their data.

01 / 13

Project

Project 2

Verity Verification (Web)

KYC Compliance System is the User-Client Lifecycle Management solutions on the market that allows organizations of any size or type to access the information related to all kind of subjects from the Users. Clients be confident of the information provided by user, because all of it is verified for authenticity.

Clients can access necessary information by user's permission to disclose certain parts of their data.

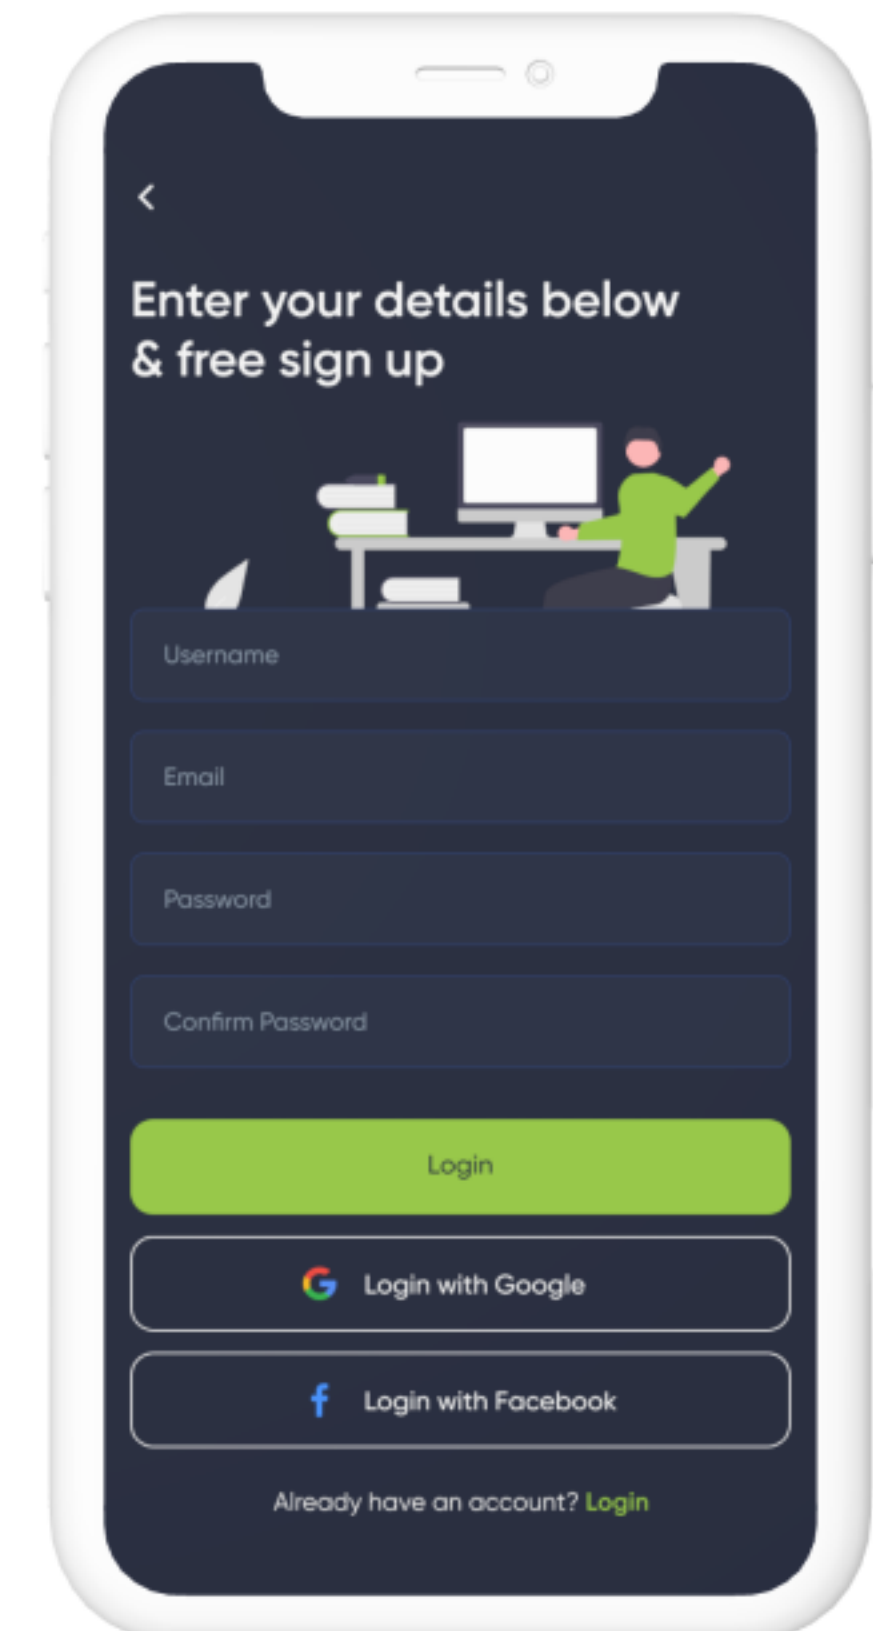

LOGO

Online Learning (IOS ANDROID)

The training of tomorrow's workers will be conducted via mobile devices. Increased engagement, better retention, and better business outcomes are generated by giving employees access to bite-sized microlearning content via their mobile devices.

This app is a great learning tool for students who do not have access to a physical classroom. It is useful for students who are working professionals and wish to improve. It allows students living in remote areas to attend classes.

03 / 13

Project 2

Project 4

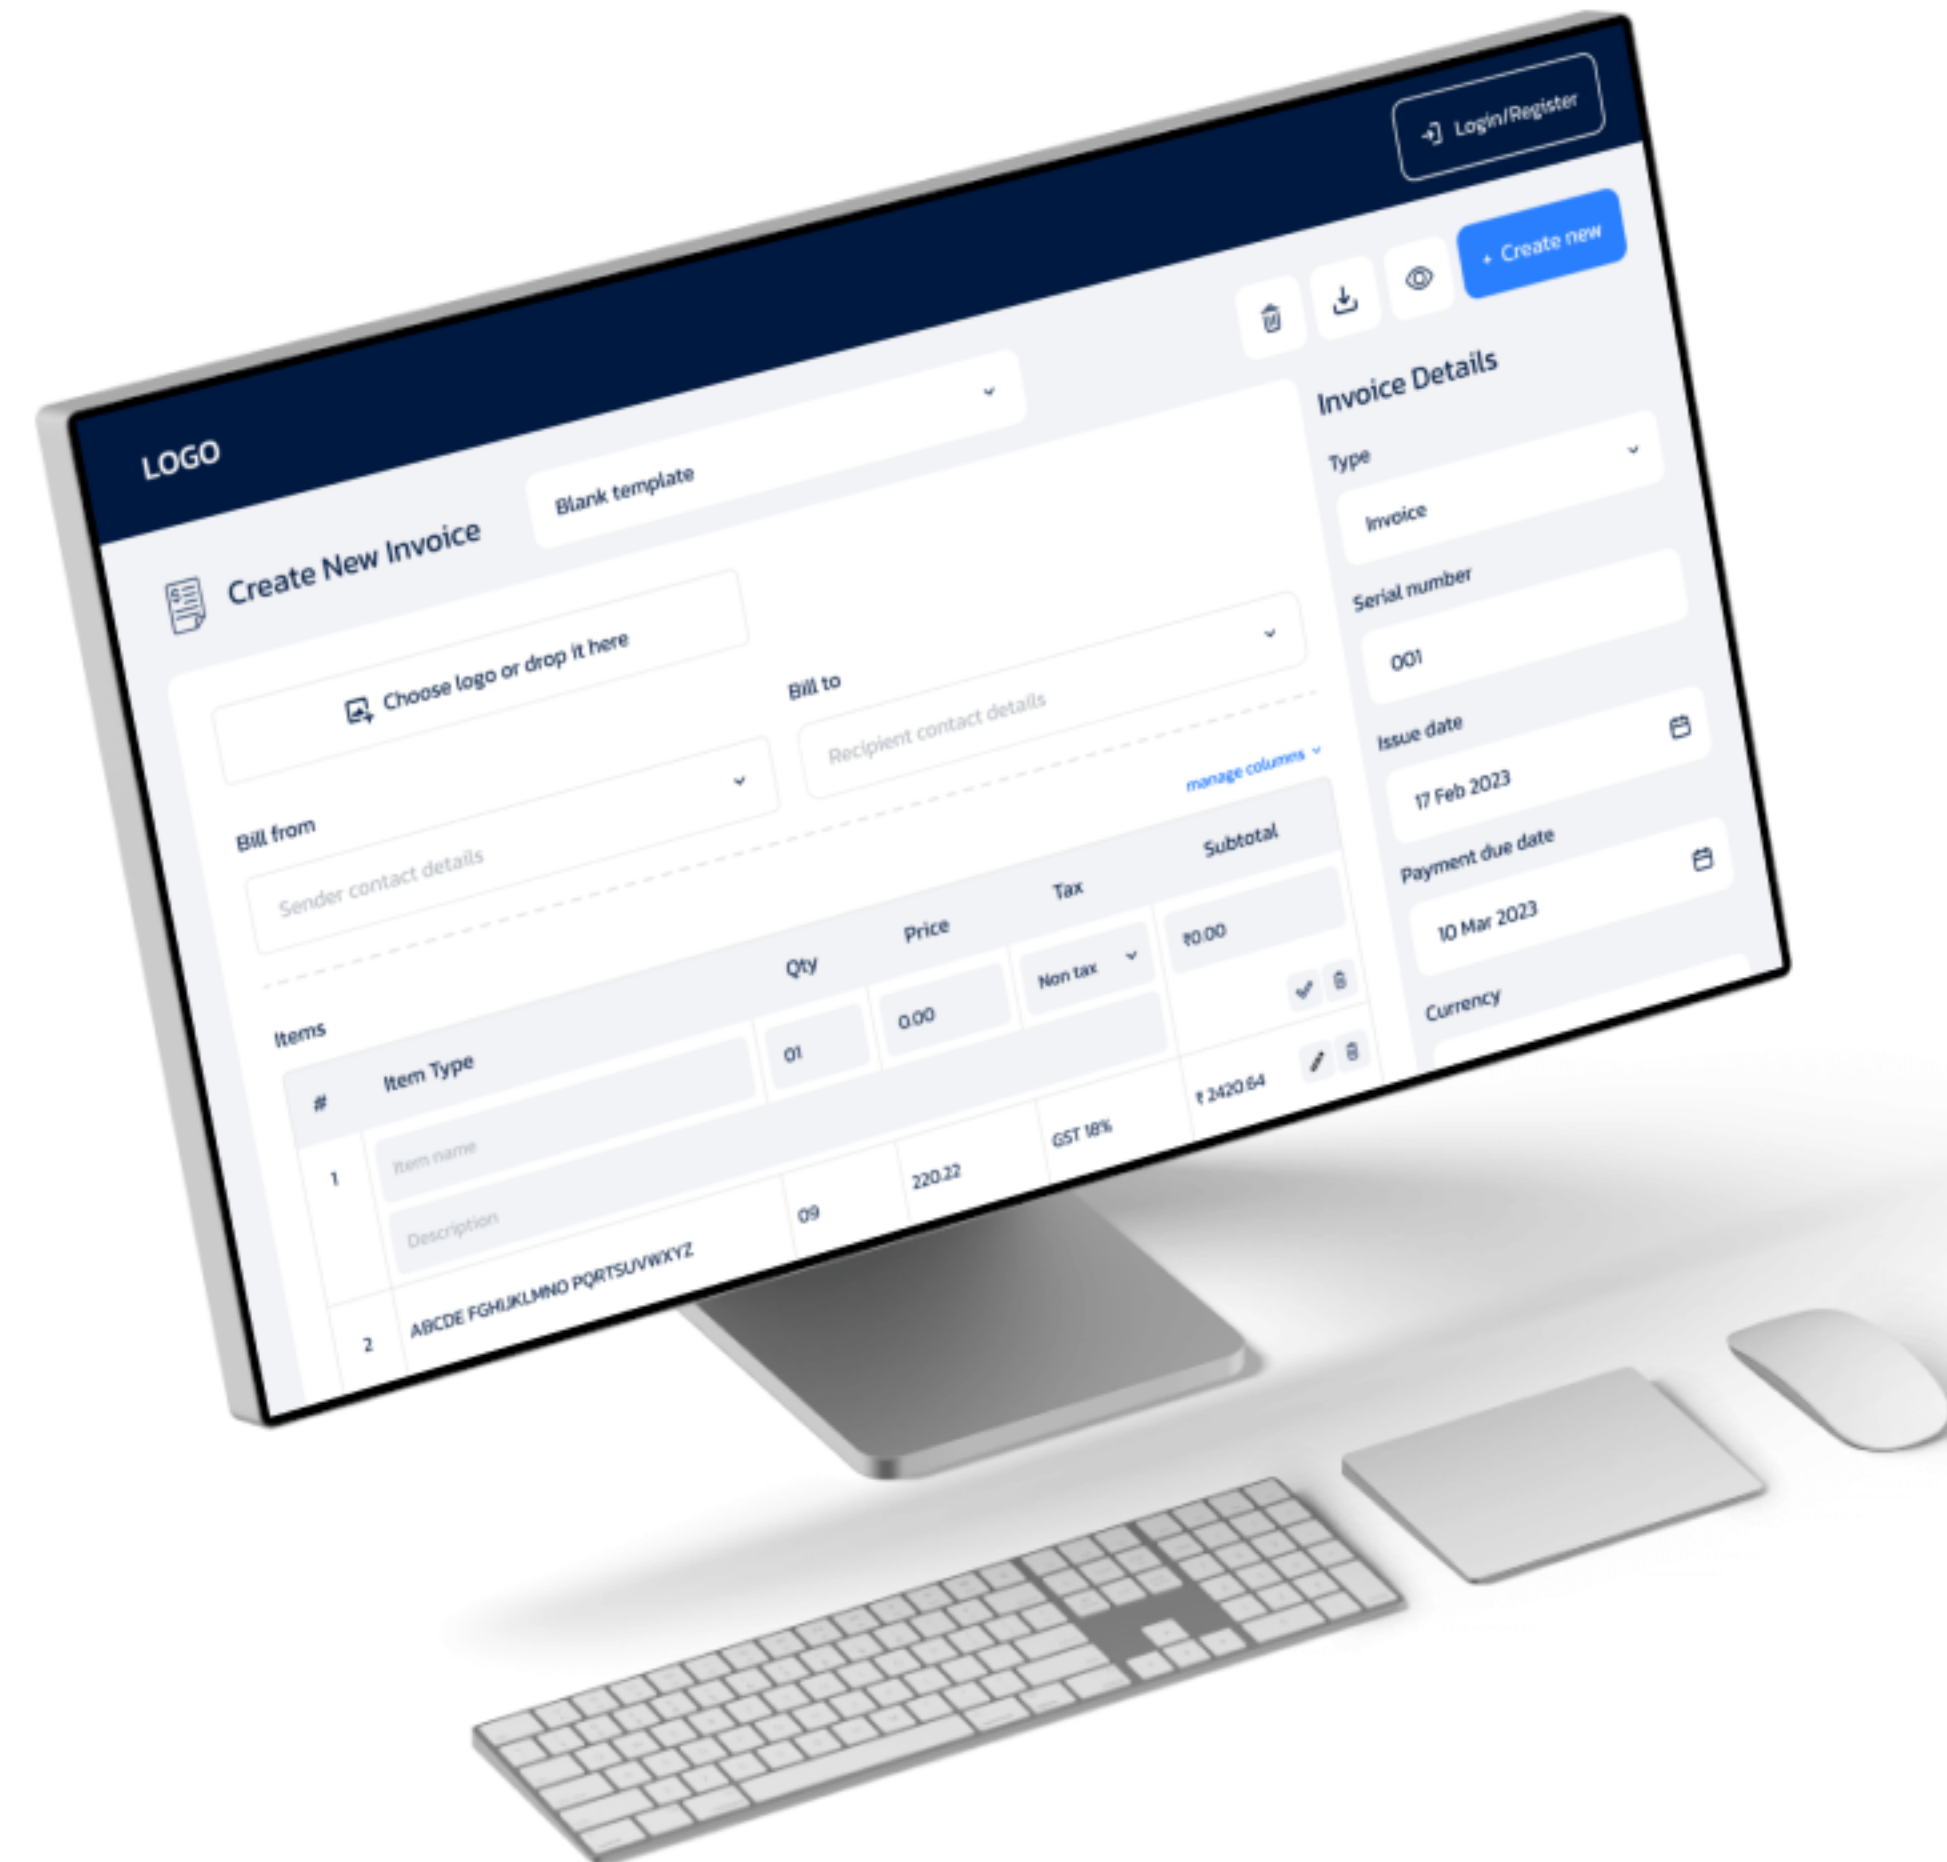

LOGO

Create Invoice

A significant portion of any business is sending invoices to customers; in order for a business to remain operational, customer payments must be received on time. Yet, creating bills can frequently be extremely laborious, which is why many business owners put off doing it until the last minute.

Create helps you track expenses, record payments & generate beautiful invoices & estimates with ability to choose multiple templates.

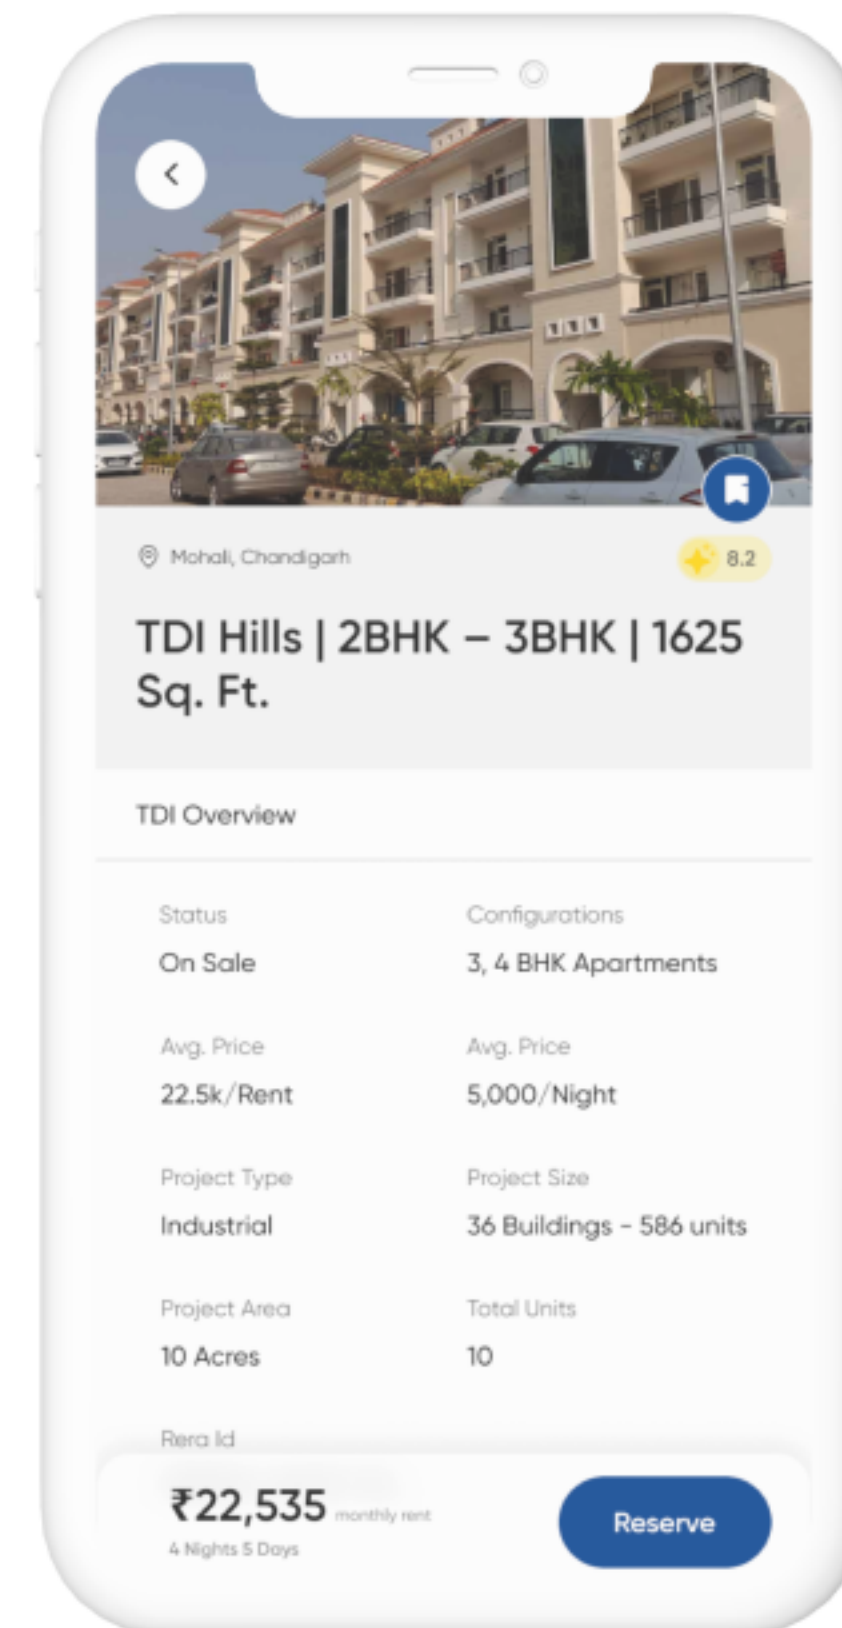

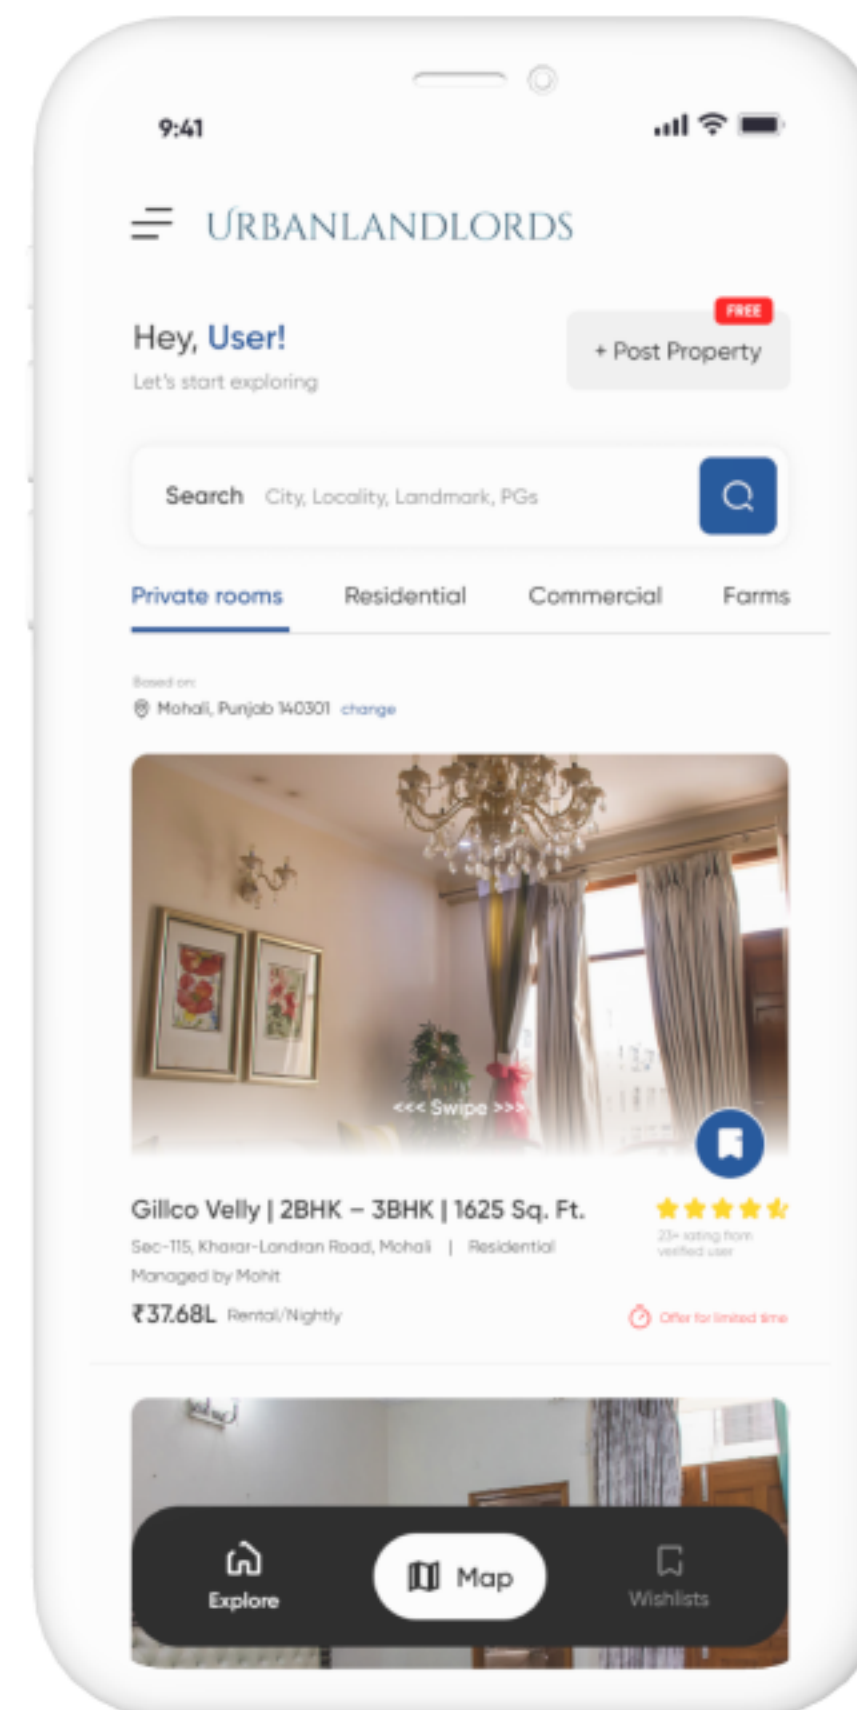

URBANLANDLORDS

Urban Landlords (IOS ANDROID)

In order to be accepted as a tenant at a rental property, an applicant must submit a rental application, which is a form made by the landlord or property owner. According on the option of the landlord, they can be viewed either online or in person.

An applicant's personal information, income documentation, housing history, and other details are all gathered by landlords through a rental application.

05 / 13

Project 4

Project 6

URBANLANDLORDS

Urban Landlords (Admin)

In order to be accepted as a tenant at a rental property, an applicant must submit a rental application, which is a form made by the landlord or property owner. According on the option of the landlord, they can be viewed either online or in person.

An applicant's personal information, income documentation, housing history, and other details are all gathered by landlords through a rental application.

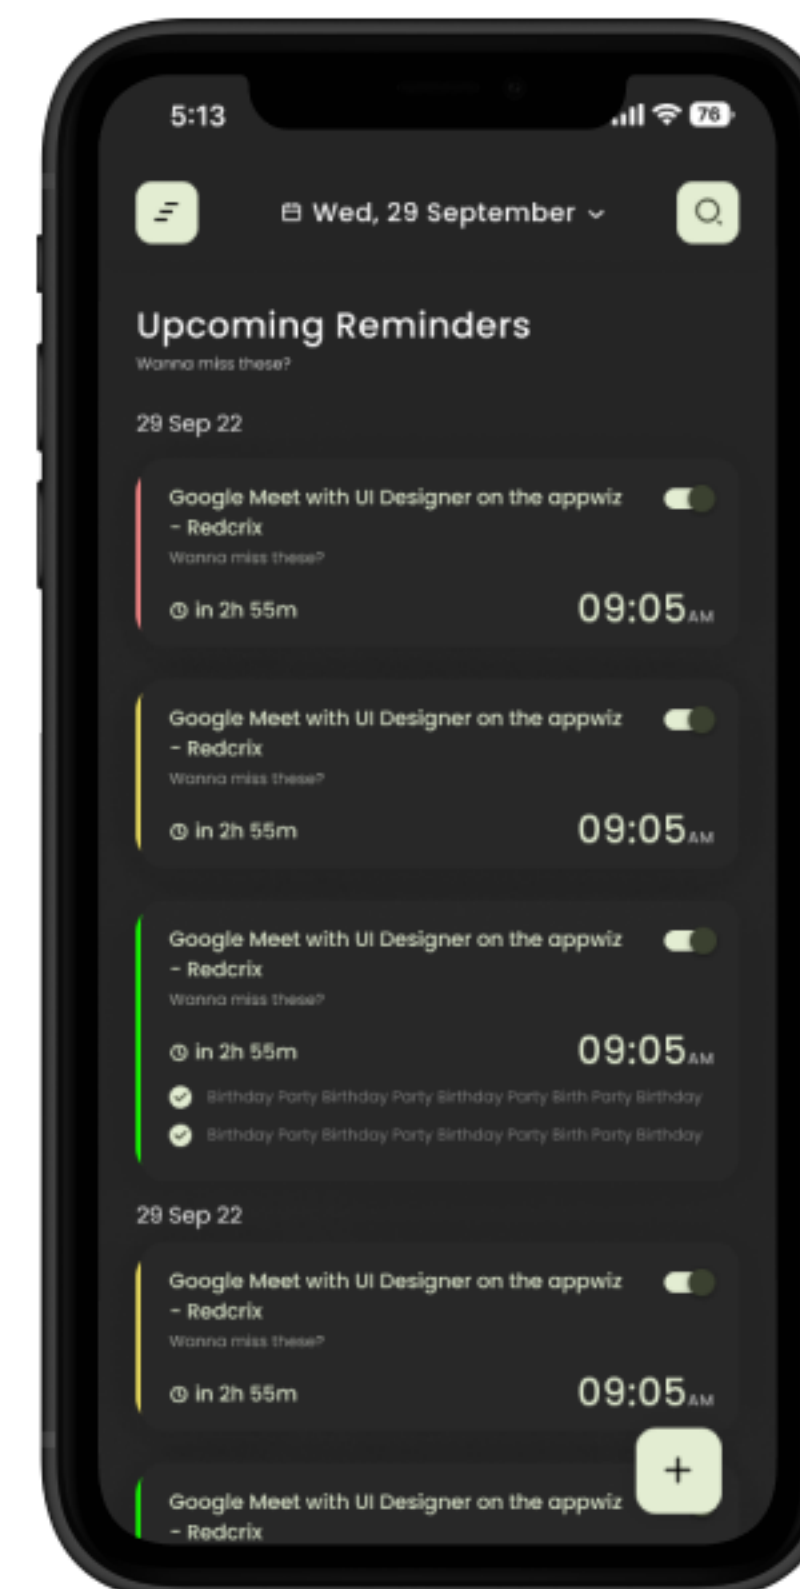

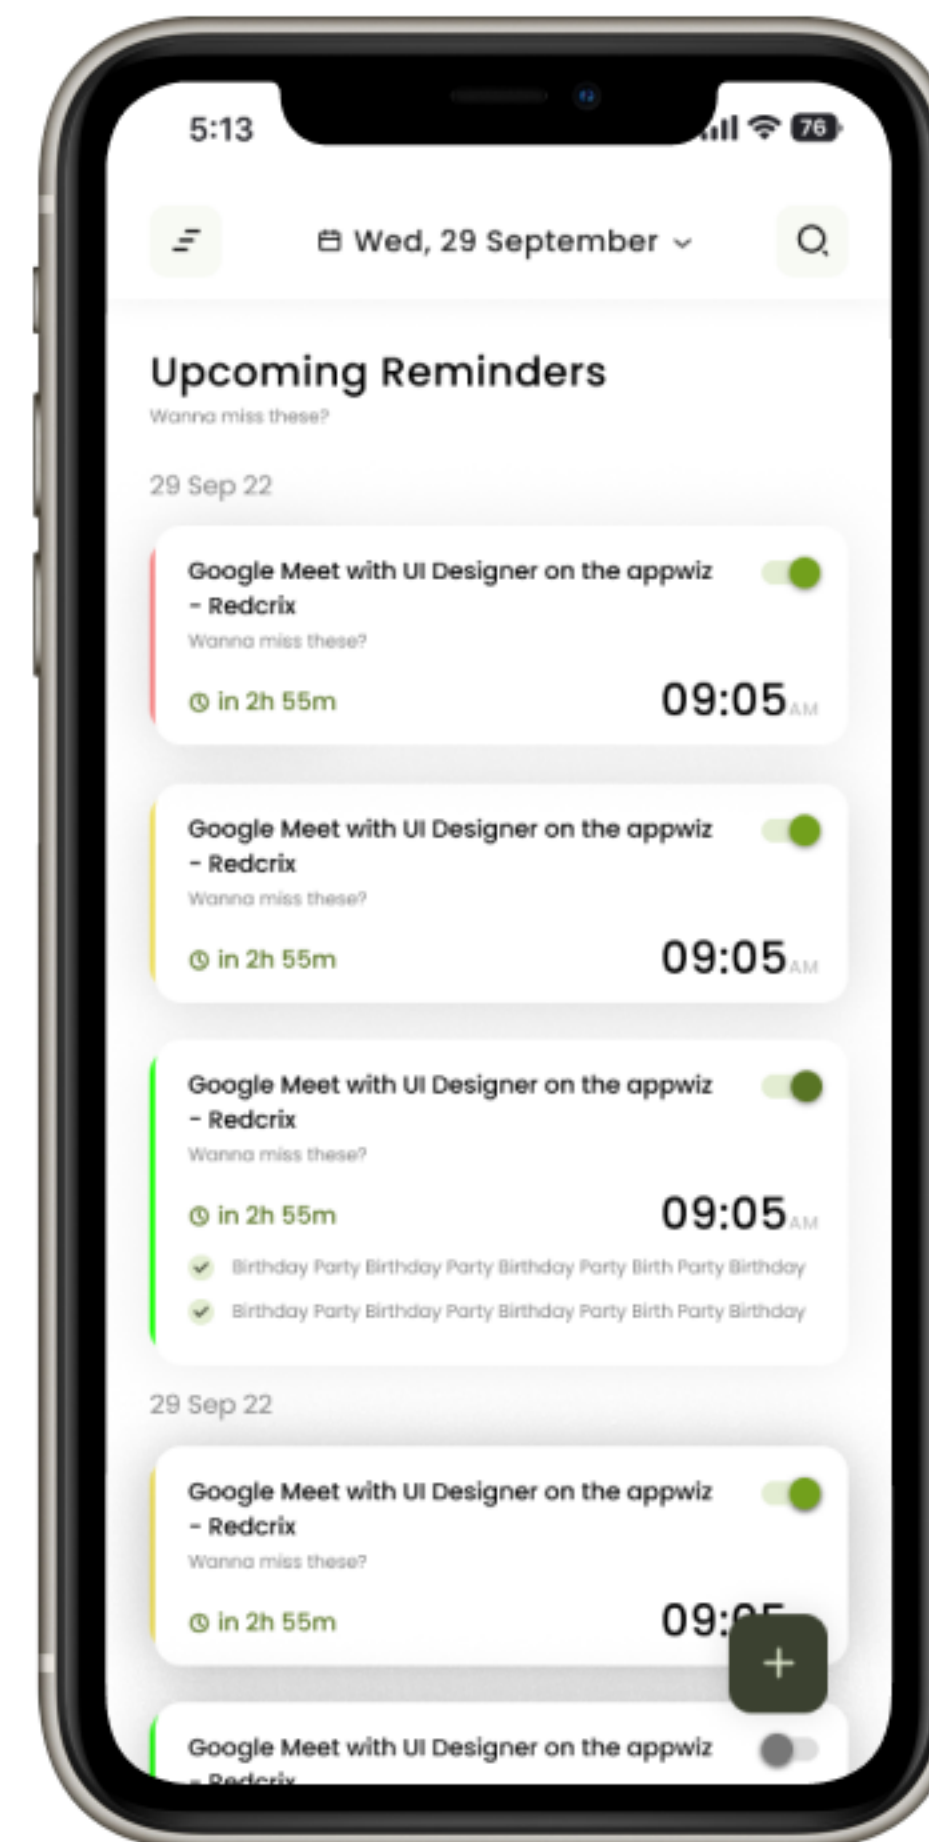

LOGO

Common Reminder (IOS ANDROID)

The software allows you to plan your schedule, manage your routines, and arrange your daily tasks in a simple and understandable manner.

The app aids in enhancing productivity and keeping track of tasks that have been completed and those that have not. To ensure that you don't forget any of your to-do items, you can quickly add a single or repeating alarm with a personalized ringtone.

07 / 13

Project 6

Project 8

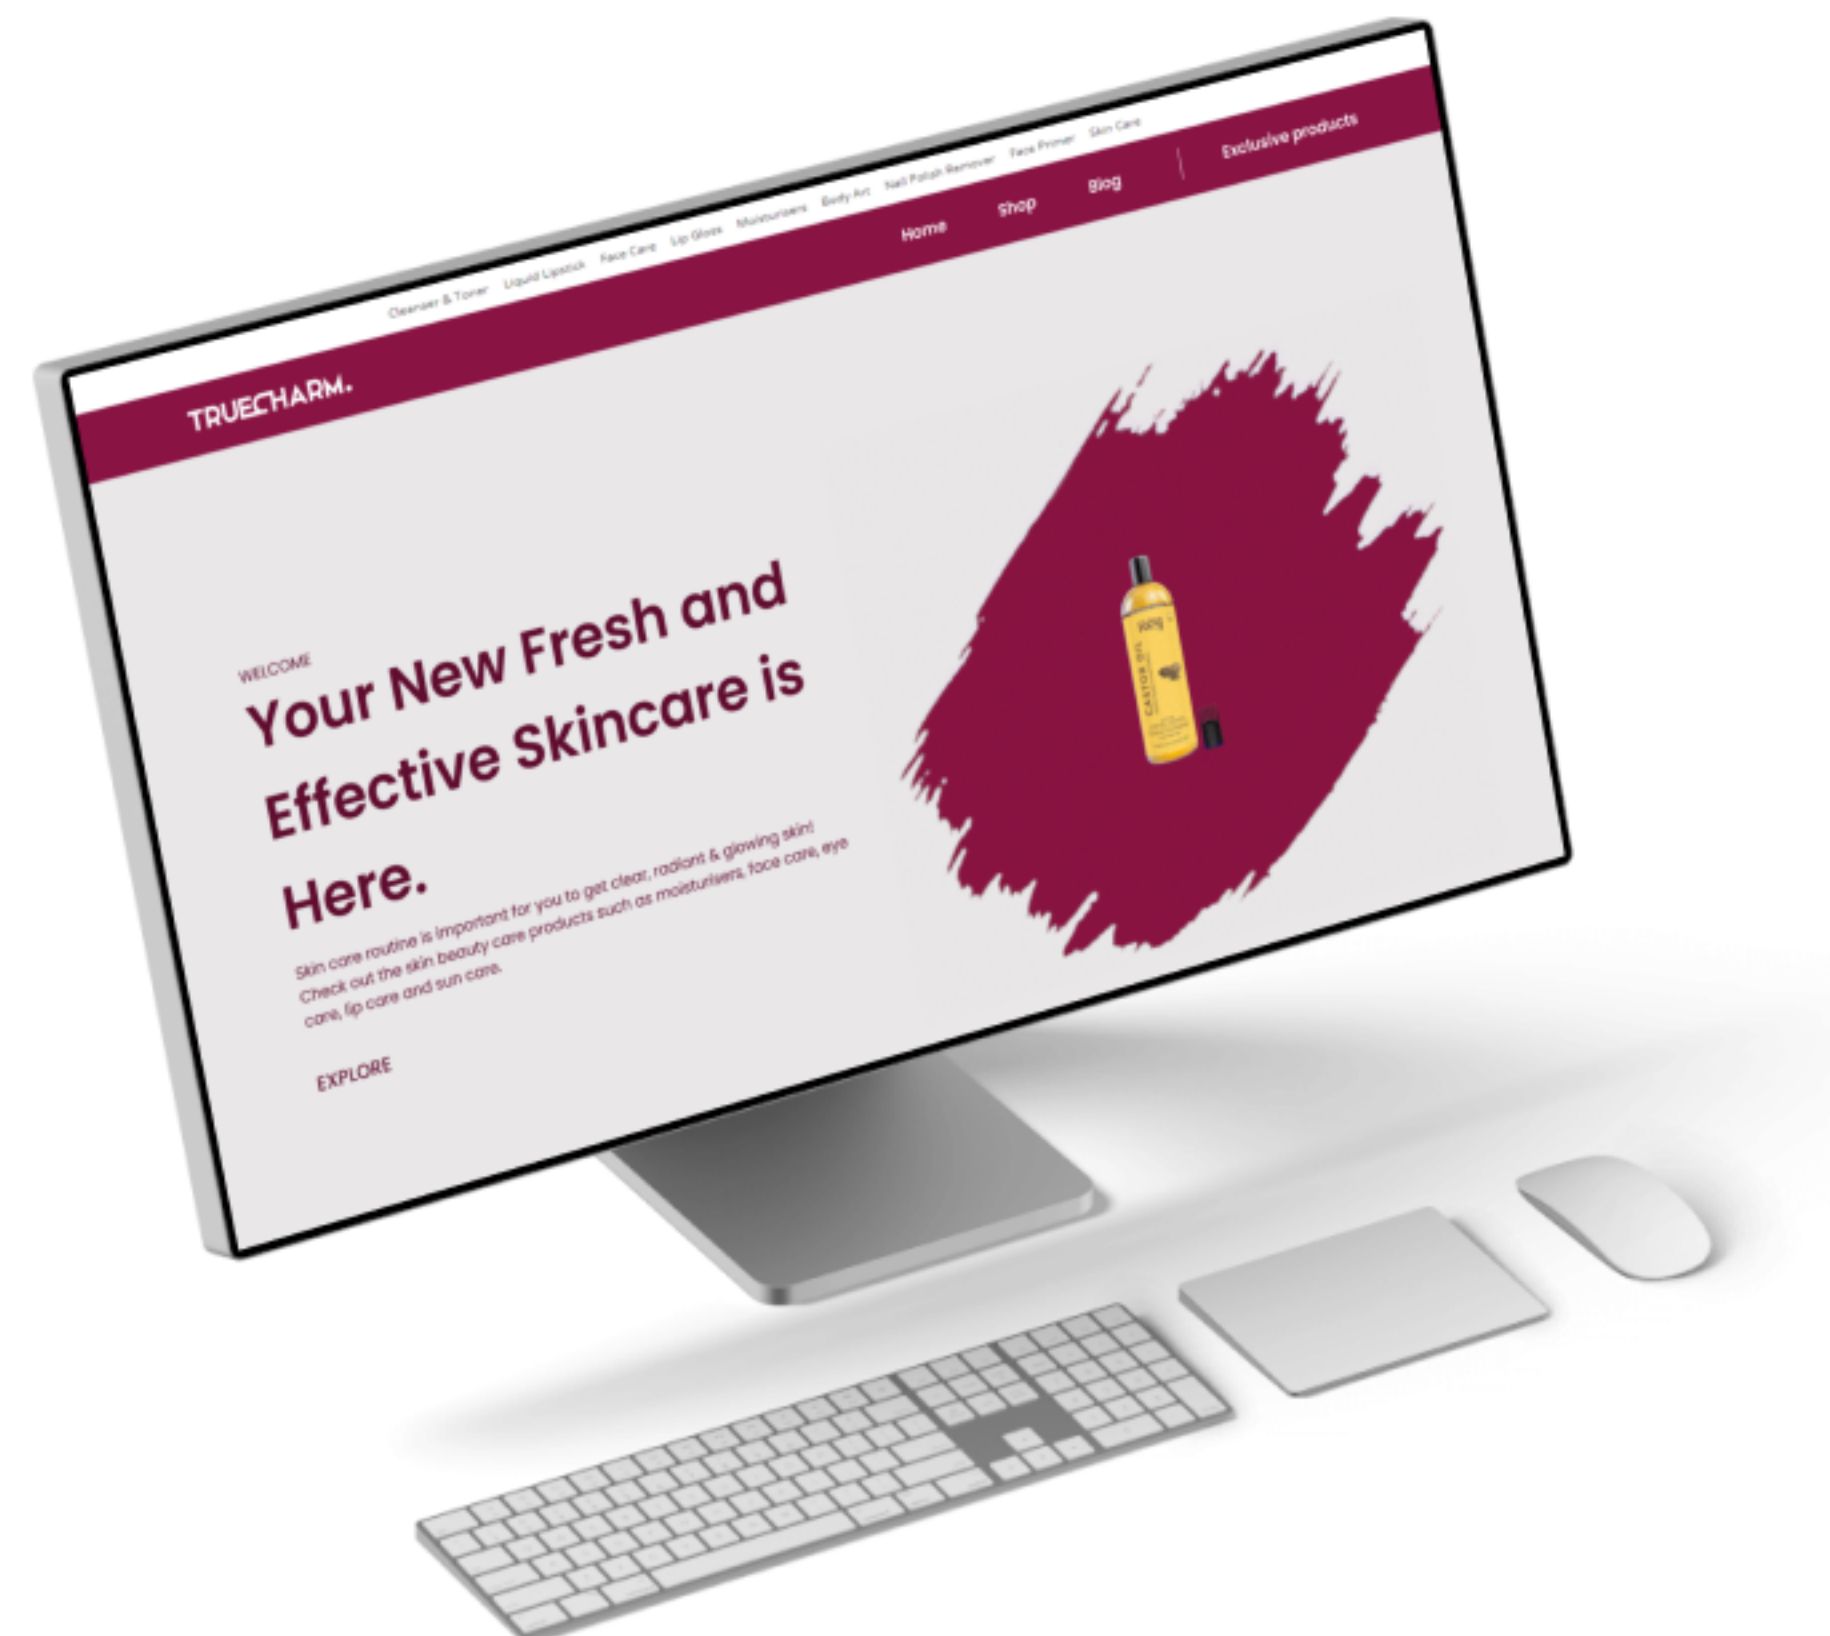

TRUECHARM.

Truecharm

Navigating the world of beauty care can be confusing. That's why Truecharm, a group of highly experienced beauty team is here to bring clear, expert consultation on the products to help achieve your beauty-care goals.

LOGO

Cargo (IOS ANDROID)

You can find, share, and purchase fantastic things on Cargo. With a video-based marketplace where you can swipe through an unending feed of entertaining movies, find fantastic things, and buy with a single click, we're bringing shopping fun back.

Cargo Makes Buying Fun: Get in touch with the brand's creators, learn about its history, and make a one-click purchase with free shipping.

Project 10

Project 12

MyPlotPic

Customers can place an order on the iOS, Android and Web Portal to know the current status of their property. The team of MyPlotPic visits their property take snaps, video-shoots and drone view (if local laws permits) the location and its surrounding developments, and update on their order.

MYPLOTPIC.COM is a rising one on the market. Working with both companies and individuals, we strive to offer the best possible conditions for visiting sites and providing videos of real estate.

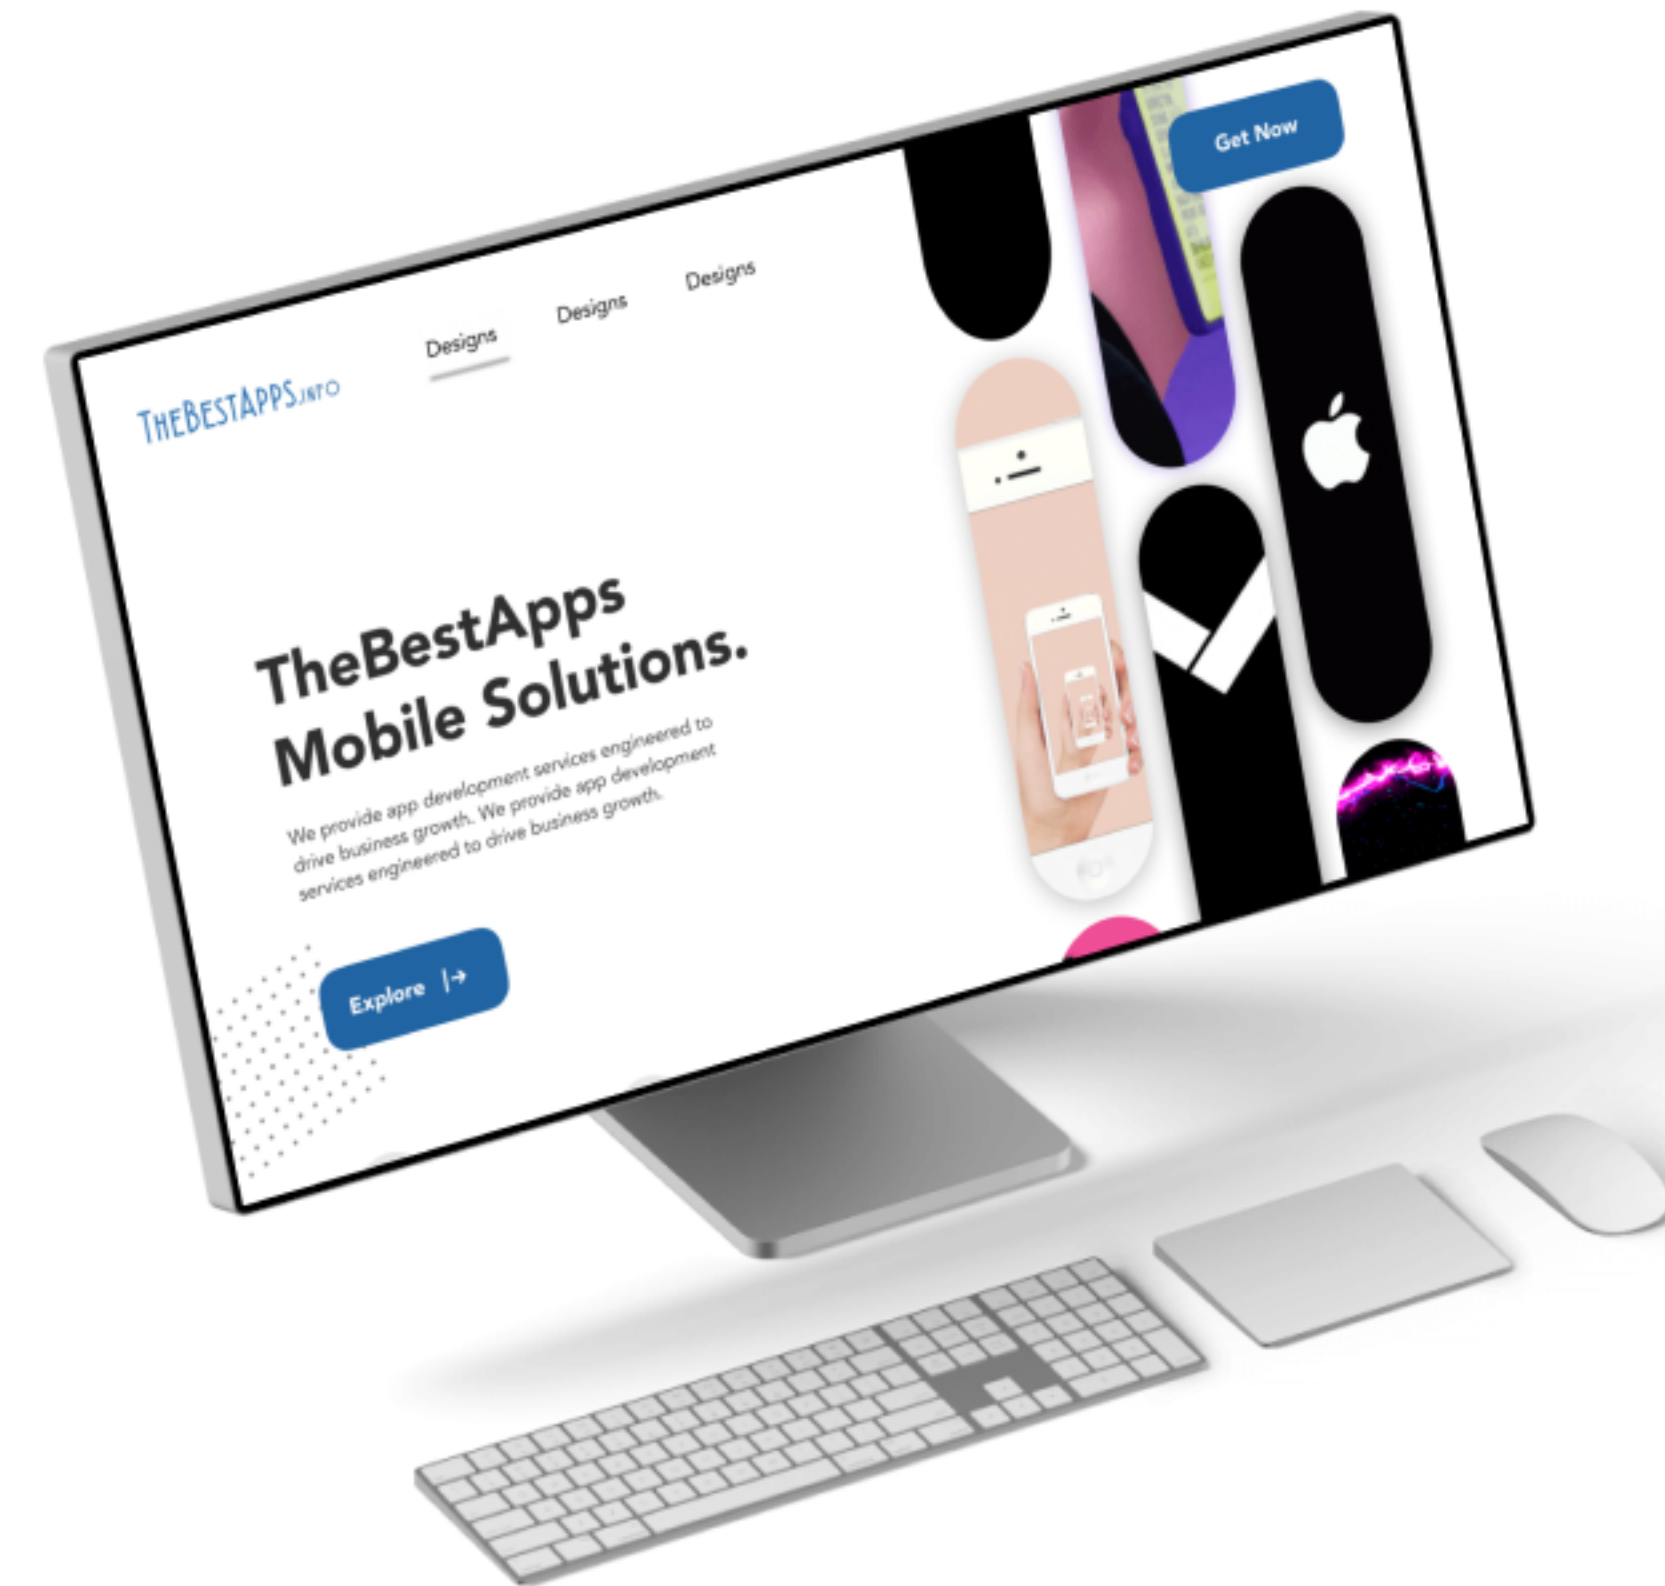

TheBestApps

We provide app development services engineered to drive business growth. We help entrepreneurs, startups and established brands in leveraging mobile apps to increase revenue, engage customers and market their businesses. We are the top mobile app development company. We create custom native apps for iOS, Android and Web to fit your needs and budget.

Create apps through our app developer services, web & mobile development services at our India based software development company.
